

CUSTOMIZABLE CONFIGURABLE USER & MOBILE FRIENDLY DYNAMIC REPORTING

Guardian offers easy-to-use case management software for many institutional applications.

You can configure Guardian precisely to your organization's unique needs, preferences, and processes. It is built to adapt to different workflows, handle unique situations, and deliver timely and relevant information at every step of a complaint or incident resolution process for K-12 schools, districts, and higher education institutions.

Guardian can be used by all departments involved in case management, including Student Conduct/Discipline, Student Support Teams, Crisis Management/Intervention Teams, Title IX, Behavioral Intervention and CARE Teams, Human Resources, Residence Life, Campus Safety, Disability Services, and Academic Integrity.

Learn more at www.tngconsulting.com or email us for a demo at inquiry@tngconsulting.com.

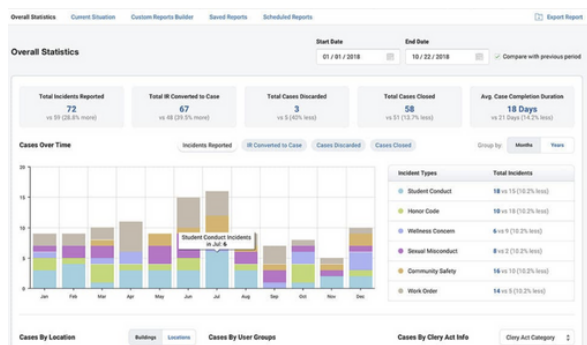

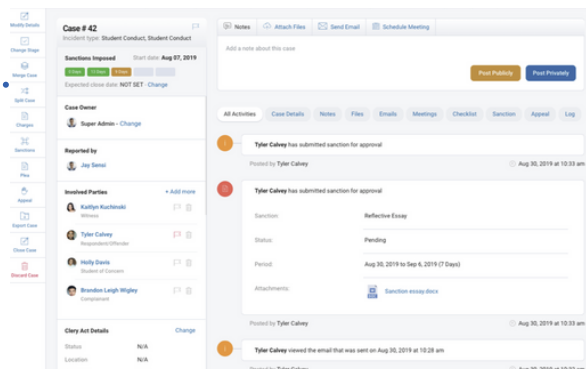

WORKFLOW VIEW WITH DRAG AND DROP CASE MANAGEMENT

Create your own processes and toggle easily between cases; customizable workflows based on your specific processes and needs.

INTERACTIVE CASE MANAGEMENT VIEW WITH AUDIT LOG

Perform all case-related activities on one screen, including case merging and case splitting, send emails, schedule meetings, manage charges, notices, sanctions, and appeals.

ADVANCED STATISTICS AND REPORTING

View detailed reports, create custom reports with charts and trends, schedule and distribute them automatically, and automate Clery Act reporting and state-mandated incident tracking. Takes the guesswork out of compliance reporting.

USER PORTAL

View and submit emails, documents, sanction documentation, and manage investigations, hearings, and appeals with one login.

USER DATABASE

Easily view and track user information and case history and share information to and from other campus/school systems.

AUTOMATED INFORMATION RETRIEVAL (IR) ROUTING

Dynamic reporting form collects all necessary information using conditional logic and routes it to the proper workflow.

NOTIFYING AND SCHEDULING

Send documents and all communication, including meeting invitations, from Guardian.

ACCESS PERMISSIONS

Fully configurable permissions allow for granting and/or restricting workflow and data access based on the user's duties.
